this difficulty:

FACE NEW PROBLEM The fame of Utah as an ore smelting center is acknowledged the world over, and there is in use within this state as modern a smelting practice as there is anywhere. The smelting experts of Utab have been called upon to solve some intricate smelting problems in the past, and there now exists another difficulty which must be surmounted arising out of the new sintering practice in vogue in several plants. The following editorial in Metallurgical and Chemical Engineering Journal of New York explains

The occurrence of two disasters by the explosion and fire at Utah lead keep the peace or the stuffy republic 3202 Washington Ave, MONEY to loan on city and farm property.
